

SATURDAY, SEPTEMBER 1, 1894.

WHY PULLMAN REDUCED WAGES.

The real secret of the reduction of wages at Pullman has been made public. It was not because of the business depression, as the company paid regular dividends on \$36,000,000 and carried over a large surplus, but for the reason that the employees would not vote the Republican ticket.

Pullman owns the "model" town which bears his name. It is a suburb of Chicago. The buildings and the ground on which they were erected are owned by Pullman. The ministers preach Pullman in the churches owned by Pullman, and the teachers sound his praises in the schools. It is not stated whether it is a criminal offense, punishable by fine or imprisonment or both, to speak the lordly name of Pullman, when referring to its owner, without prefixing the title "Marquise," which he is said to have purchased for a consideration from some impetuous European monarch who sells titles for revenue, but no doubt it is.

Now it is made public that the great grievance which the Marquise of Pullman has against his men is that they refuse to vote as he directs. He confidently expected that the town would give about 2,500 Republican majority at the last election. He promised the party leaders as much and declared that he had not the slightest idea that the majority would be less than 2,000. When the votes were counted the majority against the Republicans was over 2,000. That was enough. The Marquise says he made up his mind that his employees were not worth the care he bestowed upon them and he would cut wages to the bottom notch. Why should men who worked for him, lived in his houses, worshipped in his churches and sent their children to his schools, for all of which they paid, have an independent wish or thought? Were they not dependent upon him as much as slaves were upon their owners and why should he not control their every act? Was he not a noble by virtue of the patent issued by a crowned head of Europe, and what rights had American citizens in his employ that he should respect? To make his men submissive he reduced wages to starvation rates, but kept rents, water and everything else in the "model" town up to the old rates.

The men rebelled, a strike ensued, every railroad on which the Pullman cars were used was blockaded and the power of the Government was invoked to compel men to handle Pullman cars, and all because the Marquise of Pullman was angered by the refusal of his employees to vote the Republican ticket.

DECEPTIVE DECLARATION.

The Republican party of Nevada in convention assembled declared for the free coinage of silver, and the party trumpeters throughout the State say the Republican party, if in power, would restore silver. That these declarations are false and hollow-sounding is apparent to every intelligent person who reads the record of the party on the silver question. The Republican party demonetized silver, and its fable men in Nevada apologized for the act and declared that the party would rectify the mistake. In 1878 the Republican Senate refused to restore silver, and a Republican President vetoed the Standard Dollar act. In 1890, when the Administration and both Houses of Congress were Republican, the Committee on Coinage, Weights and Measures, of which Representative Bartine of Nevada was a member, refused to report a free coinage bill. In 1893, when a Democratic President convened Congress in the dog-days to repeal the act authorizing the purchase of silver bullion by the Government, 98 Republicans voted with the Democrats to carry out the order of the President. Again in the present year, when Congress passed an act to coin the silver bullion in the Treasury, the Republicans, marshalled by Reed and Burroughs, joined the Cuckoo Democrats and voted with them to sustain the President's veto of the bill. Two months ago a Convention of Republican Clubs from all parts of the country met in the silver-producing State of Colorado and adopted a financial plank. That plank contained the word "interconvertibility," which, Mr. Sheldon, an Eastern silver man, who attended the Convention, says, was selected because it could be construed to mean the gold standard in the East and anything you please in the West. Mr. Bartine was a member of the committee that reported the resolution, and, according to Mr. Sheldon's statement, endorsed it. Now he asks the people of Nevada to return him to Congress and brazenly asserts, in the face of the record, that his party is in favor of free coinage. Mr. Bartine evidently does not believe in the truth of Lincoln's assertion that "you can fool all the people some of the time and some of the people all the time, but you cannot fool all the people all of the time."

Georgia Republicans are very much like Nevada Democrats; there are not very many of them, but what few there are cannot agree. They met in State Convention at Atlanta; every delegate was a statesman with views of his own, which he wanted the others to adopt. They finally concentrated in factions. One of the factions wants a straight ticket, another wants to endorse the Populists, and a third does not want to do either.

GOV. WAITE RELEASED.

The World's Pacing Record Lowered.

THE WAR IN THE ORIENT.

Terrible Loss of Life and Property by Floods in Texas.

FELL AMONG THIEVES.

Wounded and Robbed on a Freight Train.

PITTSBURG, August 31.—William Hawthorth of Mount Washington is at the West Penn Hospital with a bullet in his right thigh, the result of an encounter with highwaymen under peculiar circumstances.

Last evening Hawthorth mounted a Pittsburg & Lake Erie freight train to take a ride. There were three other men on the same car, and when Alliquippa was reached they demanded his watch and money. It was then about 9:30 in the evening and quite dark.

Haworth refused to part with his valuables and a desperate struggle ensued. He was getting the best of the bargain when one of his assailants drew a revolver and fired point blank, the ball striking him about six inches above the knee. He was disabled by the wound and the ruffians leisurely abstracted his watch and a small sum of money and left the train as soon as it slowed up. When the train stopped Hawthorth attracted the attention of one of the crew. The wound is not of a serious nature.

COLORADO'S GOVERNOR.

The Charge Against Him Dismissed.

DENVER, August 31.—Governor Waite was a witness to-day before United States Commissioner Hinsdale in the case against himself, President Mullins of the Police Board, Chief of Police Armstrong and Police Matron Dwyer for withholding from ex-Matron Likens a letter for her. Waite denied the conspiracy absolutely. The letter, he said, was given him to read; after reading it he handed it back. At the conclusion of arguments Commissioner Hinsdale discharged Waite and held the other defendants to appear before the United States Grand Jury in the sum of \$500 each.

The Commissioner said Matron Dwyer had a right to open the envelope, but when she found the letter inside was addressed to Mrs. Likens she should have delivered it to her. Conspiracy among the defendants to injure Mrs. Likens had not been shown, but withholding the letter was a clear violation of the law. The evidence, however, failed to show that the Governor had anything to do with detaining the letter.

Floods in Texas.

SAN ANTONIO, August 31.—Advices from Waldo, 90 miles west of here, state that a settlement of seventy-five families a few miles from that place was washed away by a terrible Leona river flood yesterday and it is thought that all are drowned as nothing has been heard from the place and it is on low ground directly in the path of the raging torrent. Three Mexican families and six other people were drowned in the flood at Uvalde. Thirty miles of Southern Pacific track are under water.

UVALDE, Tex., August 31.—According to reports, the flood was augmented by an earthquake shock of some seconds duration.

The loss will reach a million and a half, which includes the loss of the Southern Pacific, who lost forty miles of track and many bridges. The loss of life is not known, but will probably reach fifty. The weather had been very close and threatening and a storm of some kind was looked for.

The Importance of the Irrigation Congress.

DENVER, August 31.—William E. Smythe, Chairman of the National Executive Committee of the Irrigation Congress which will assemble here next week, arrived in Denver to-day: "I have every reason to believe this Congress will be well attended by representative men. I believe that the time for action has come. This is a matter requiring great statesmanship. It is a problem of National importance. It involves the question of interstate streams and forests."

A Terrible Fire.

HONGKONG, August 31.—A terrible fire has occurred on the Canton river, hundreds of flower boats being burned. At least 1,000 natives perished in the flames. The flower boats were moored stem and stern in rows, and a large number of persons lived upon them. The spread of the conflagration from one boat to another was so rapid that the unfortunate Chinese had no time to cut them from their moorings, a strong wind materially helping to increase the fire. Many hundreds of persons leaped overboard and were drowned.

Negotiations Declared Off.

SAN FRANCISCO, August 31.—The negotiations between the California Wine Association and the Grape Growers are declared off, owing to a refusal of the association to amend the proposed contracts as desired by the growers.

The San Francisco Democrats at Loggerheads.

SAN FRANCISCO, August 31.—The bitter fight that has been waging among several factions of the San Francisco Democracy has reached a sensational climax. Andrew J. Clunie, who is the leading spirit in Democratic circles, has given publicity to a letter which he will present to the General County Committee at its next meeting. The letter bristles with serious charges against Max Popper, Chairman of the General Committee. It is charged first that Popper is a partner and political tool of Christopher A. Buckley, the notorious ex-boss, and that he is not a fit person, either morally, politically or socially, to preside over a Democratic organization. It is charged, too, that Popper is in league with Buckley to surrender the Democratic party into Buckley's hands, and that he has conspired to compass the defeat of certain Democratic candidates who have opposed his plans. It is also charged that Popper and Buckley have all along been and are now partners in the city street sweeping contract and a big contract for doing Government draying at this port. The worst charge is that Popper has openly confessed to having regularly furnished the sum of \$650 per month which was paid with his knowledge to certain members of the last Board of Supervisors to protect himself and Buckley in their street sweeping contract. The letter closes with an appeal for the removal of Popper from the Chairmanship of the General Committee.

A Ship in the Breakers.

ASTORIA, Or., August 31.—The British bark Glencairn, with cement, is in the breakers abreast of Point Adams light. The mate and part of the crew came ashore in a small boat. The O. R. & N. tug will go out at once. Two tugs have been wired for at Port Stevens. It is raining hard and a heavy swell is on from the northwest. It is thought that it will be impossible to save the vessel. The captain and part of the crew are still on board. The Glencairn is a vessel of 1503 tons and sailed from Antwerp for Portland March 15th.

Levi P. Morton Writes an Open Letter.

RHINE CLIFF, N. Y., August 31.—Hon. Levi P. Morton in an open letter to the Republicans says: "I appreciate the importance of the office of chief executive of New York, and should I be called to fill it I shall strive earnestly to serve the people with a steadfastness of purpose and to faithfully administer the public trust."

The War in the Orient.

LONDON, August 31.—A dispatch to the Times from Shanghai says: A Tientsin dispatch from Chinese sources says fourteen Japanese ships with over 5,000 troops on board are attacking Port Arthur. The Chinese garrison numbering 5,000 men and a Chinese fleet have been ordered to attack the Japanese.

Suicide of a Prominent Lady at Fresno. Fresno, Cal., August 31.—Mrs. Annie E. Rasmus, a lady well and favorably known in social circles committed suicide to-day by taking laudanum. She lived at the Scandinavian colony, but came to town to-day in search of her husband who is missing since Monday. She was a member of the Pythian Sisters.

The Pacing Record Again Lowered.

FORT WAYNE, Ind., August 31.—The Mascot, Flying Jib, and Nancy Hanks detoured and Robert J. stands to-day the king of horses. The great son of Hartford driven by Ed Geers to-day made the fastest mile ever paced in harness, lowering the world's record of 2:04 to 2:03 3/4.

Plum Talk.

There is a preservative principle in Sozodont that effectually preserves the teeth from decay. Rich and poor endorse it. No lady ever tried it without approving its cleansing and purifying properties. It outshines all other dentifrices. Ask for Sozodont and take no substitute.

Cocona Cream

Is the latest and best of all toilet creams to render the skin soft, white and beautiful without injury to it. It is excellent for sunburn and to remove tan and freckles and other blemishes. Every lady should have a bottle of it and may be had of William Pinniger.

Saved Her Life.

Mrs. C. J. Woodman, of Wortham, Texas, saved the life of her child by the use of Ayer's Cherry Pectoral. "One of my children had Croup. The doctor was attended by our physician, and was supposed to be well under control. One night I was startled by the child's hard breathing, and on going to it found it struggling. It had nearly ceased to breathe. Fearing that the child's alarming condition had become possible in spite of the medicines given, I reasoned that such remedies would be of no avail. Having part of a bottle of Ayer's Cherry Pectoral in the house, I gave the child three doses, at short intervals, and anxiously waited results. From the moment the Pectoral was given, the child's breathing grew easier, and in a short time, she was sleeping quietly and breathing naturally. The child is alive and well to-day, and I do not hesitate to say that Ayer's Cherry Pectoral saved her life."

AYER'S Cherry Pectoral
Prepared by Dr. J. C. Ayer & Co., Lowell, Mass.
Prompt to act, sure to cure

A GENTLE WOMAN

Wishes a toilet cream to promote that

Brilliant Transparency of the skin, which is the true beauty of the complexion.

She wishes it to have the true fragrance of the flowers and the gentle tonic action of the healing balsams, which render the skin soft, white and beautiful without injury to it.

She wishes the refreshing, soothing effect of the best and simplest ingredients blended into a perfect cream. She finds it in Cocona Cream and will have no other.

She never uses the paints and face bleaches which are so injurious to the skin.

GENTLEMEN after shaving find Cocona Cream most excellent.

COCONA WATER is the natural fragrance of flowers for the toilet and bath.

COCONA BALM Prevents and Heals chapping, breaking and roughness of the skin.

THE COCONA TOILET SPECIALTIES are manufactured only by the

Cocona Company,

SAN FRANCISCO, CAL.,

and we have secured the agency of same, as it is our constant effort to supply the public with the finest and latest Toilet Articles and the purest of Drugs and Medicines.

FOR SALE BY WM. PINNIGER.

CONVERTED

A Republican Discusses Public Matters with a Populist and is taken into the Fold.

Republican—I never could understand how you Populists would be able to get \$50 per capita into circulation. Populist—That can be very easily explained. You are quite a young man and of course you do not remember the civil war. Our Government at that time gave employment for four years to nearly 2,000,000 men and put \$1,800,000,000 of new currency into circulation.

R—But that was done to save the Republic from dissolution and was considered a great emergency.

P—The emergency is just as great now as it was then. At the present time there are 3,000,000 able-bodied men out of employment and there are 5,000,000 other men that are on the verge of bankruptcy. By giving employment to the idle men the Government would save the others from financial ruin. It is not necessary to declare war to do this; it can be done by public improvements including the construction of railroads and giving every section of our country good transportation facilities.

R—I am afraid that the bondholders would object to a proposition of that kind it might impair the earning capacity of their bonds.

P—The bondholders would be benefited as much as any other class of people; for under our present financial policy we are rapidly approaching conditions which will make it absolutely impossible for the bondholders to collect their interest.

R—I begin to think you are about right, for I have noticed that of late there has been a good deal of complaint about trouble in collecting interest, and a great many debts are being refunded with the interest added. Of course, if these conditions last much longer there is bound to be a collapse. Some of our Republican politicians in Nevada say if we increase our circulation to \$50 per capita we will have to issue so much paper that it will impair the value of silver.

P—These Nevada Republican politicians are very unreliable and what they say should be so considered. We have had the free coinage of gold and silver at the ratio of 16 to 1 and at the same time we had enough paper currency to make the circulation \$50 per capita and no silver miner suffered any inconvenience whatever from that source. The farmers of the West and South are willing to meet the silver miners half way and will furnish Populists enough to carry the free coinage of silver to a successful issue; and the silver miners are too honorable not to join the Populists in other reforms that are just as essential for the public good as the free coinage of silver.

R—You are right. Your illustration of the financial question and the labor problem, is a new revelation to me; henceforth you can count on me as being a true blue Populist.

FARMER.

The Austin Revelle says: "The cattle men of upper Reese River and Smokey Valley estimate that they will have 1,000 head of beef cattle for sale this Fall. Many of the cattle are now gathered and on fine meadow pasture and cattle buyers could drive some fine bargains by visiting those neighborhoods."

Take your prescriptions to McCullough's no-commission drug store where you will get pure drugs at prices to suit the times.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became a Man, she clung to Castoria.
When she had Children, she gave them Castoria.

For Rent.

The Marked Success

of Scott's Emulsion in consumption, scrofula and other forms of hereditary disease is due to its powerful food properties.

Scott's Emulsion

rapidly creates healthy flesh—proper weight. Hereditary taints develop only when the system becomes weakened.

Nothing in the world of medicine has been so successful in diseases that are most menacing to life. Physicians everywhere prescribe it.

Prepared by Scott & Bowne, N. Y. All other imitations are rejected.

BREVITIES.

Roller barley at Boalt & Bird's.
Harry Larsen of Lovelock is visiting friends in Reno.

Cottage and garden for rent in good location. See ad.

Mrs. C. T. Bender returned from Carson last evening.

J. R. Shaw of Dayton arrived on the V. & T. last night.

Hon. Wm. Woodburn arrived from the south last evening.

The United States Circuit Court will meet to-day at Carson.

Col. Jerry Moore of Elko arrived from the East yesterday.

Miss Bessie Doten was a passenger for California last evening.

Roller barley in any quantity from a pound to a car-load at Boalt & Bird's.

President J. E. Statbs of the University left for California last night.

Ed Cambron and J. E. Cambron of Surprise Valley are registered at the Palace.

Congressman Francis G. Nowlands and wife arrived from the east last night.

Quite a number of Renoites visited Carson yesterday, returning last evening.

T. J. Bell of Nye county, candidate for the nomination of Governor before the Silver Convention, has opened headquarters at Carson.

The ladies of the Catholic church are making arrangements for a bazaar in aid of the church to take place probably during Thanksgiving week.

R. M. Hutchinson of San Jose is spending a few days in Reno. He has been on the Comstock and is looking over the mining interests hereabouts.

F. W. Boardlee of San Francisco arrived from the south last evening, having been looking at some borax works and coal prospects in Esmeralda county.

A grand military ball was given at Carson last night, and to-day will end the encampment. Camp will be broken in time for the companies to take trains for home.

Lack of vitality and color matter in the hair causes the hair to turn gray and fall out. We recommend Hall's Hair Renewer to prevent baldness and grayness.

A canvass of wholesale houses in New York shows that there are more out-of-town buyers in the city than there have been for two years. The hotels are crowded with them.

W. C. Hancock, late Principal of the school at Battle Mountain, arrived on yesterday afternoon's train on his way to Dayton, where he has been engaged as Principal of the schools there.

St. Mary's parochial school will reopen next Monday. Owing to the present lack of school room, pupils higher than the fifth grade cannot be received. This is a free school.

Miss Annie Shadeler left last night for Wells, Elko county, where she has been engaged to teach the public school. The young lady is a graduate of the State University and highly accomplished.

The Lassen Advocate says Lee Cole, who had been sent by his mother to make purchases at a store last Wednesday was drowned in Susan river. His clothes were found on the bank and his lifeless body in the river.

The bolting faction of the Democratic State Central Committee met at Carson Wednesday and decided to hold a State Convention at Carson on September 18, 1894. C. A. Jones resigned the position of Secretary, and S. H. Day was elected to fill the vacancy.

S. O. Wells does not allow his stock to run down in any particular. He is receiving goods almost every day. His line of hardware, hardware, machine extras and farmers' supplies cannot be excelled anywhere. He keeps the freshest of fancy groceries and staples constantly on hand and sells at the closest margin possible.

Mr. and Mrs. J. Westlake returned yesterday from an extended visit to California. They traveled in their own conveyance and took a good look at the country and say that Reno is the best town they saw in their travels. Mr. Westlake is now prepared for business and will do work cheaper than ever.

WEATHER BULLETIN.

Storm, Warm and Cool Waves—The Keely Motor.

(Copyrighted 1894, by W. T. Foster.)

St. JOSEPH Mo., Aug. 31.—My last bulletin gave forecasts of the storm waves to cross the continent from September 2d to 6th and the next will reach the Pacific Coast about September 7th, cross the western mountains by the close of the 8th, the great central valleys from 9th to 11th and the eastern states about 12th.

The warm wave will cross the western mountains about the 7th, the great central valleys about the 9th and the eastern states about the 11th. A Cool wave will cross the western mountains about the 10th, the great central valleys about the 12th and the eastern states about the 14th.

THE KEELY MOTOR.

As a rule orthodox scientists are not builders but critics. Their business is to tear down, not to build up. Such men as Edison, Bell, Morse, Goodyear, Whitney, Keely, are never classed as scientists but if they succeed in passing criticisms of the orthodox scientists—whose only business is to disprove the theories, discoveries and inventions of others—they may be able to place their works before those who are to be benefited, but whoever succeeds in any great discovery or invention must first run the gauntlet of the orthodox scientist scourge. "The fathers stone them and the children build them monuments."

Critics and criticisms are necessary but many meritorious discoveries, inventions and theories fail because of the almost universally bad judgment, blind prejudice and dull comprehension of scientific critics. When first brought to notice nearly every new theory, discovery and invention has been universally condemned by orthodox scientists.

Keely has passed through the scourge and has "imprisoned the ether" as he calls it. I would say that he has discovered how to resolve matter back into its original, attenuated condition, return it to ether.

The great difficulty in utilizing his discovery lies in the fact that no vessel has yet been made that will hold the ether. Like magnetism it passes through every known substance; glass will not confine it. Starting with the vibrations of a violin string, which are made to disintegrate a mixture of water and air, Keely is able to develop a force of 26,000 pounds to the square inch, but he cannot yet confine that force long enough to make it of practical utility in running machinery.

All his machinery for producing this newly discovered force has been invented and patented, but to harness this force and hitch it to machinery is the problem. In progress Keely now stands in relation to this new force about where the electricians stood as to electricity one hundred years ago. But more rapid development may be expected along these lines in the future than has been in the past.

Recently Keely appears to have made progress in his work and he announces that the ether is not the force but the medium conductor of the force. The importance of this last discovery lies in the possibility of utilizing the earth's magnetic currents which are here called the triune polar flow.

Having thus harnessed the magnetic and electric currents that constantly flow through and about the earth Keely proposes to use them in navigating the air. This part of the subject is discussed in "The Arena" for August by Clara B. Moore.

The copper wire is the medium for electricity. Many other substances are also mediums. The warm and gaseous currents rising from a barn or dwelling constitute mediums for electricity and often conduct the lightning bolt. Human and other animal flesh is a medium and when the electric current passes through with great velocity life is destroyed.

Analogous to the above is the idea of Keely that the ether is a medium for that unknown force which is called the earth's or terrestrial magnetism, and if he is correct about this we are left wholly in the dark as to what constitutes the force itself.

I cannot agree with those who believe that the ether, matter in its most attenuated form, is wholly a medium for the unknown force. The ether is itself the force.

When we dissolve water by heat, forming steam, we might claim that the steam is only a medium for some unknown force which being conducted by the steam drives the piston head of the engine. But who would accept such a theory?

Keely resolves water and air into ether by disintegrating or expanding them and the result is not unlike the making of steam. Take a cubic foot of granite and pulverize it to very fine dust and the result is at least four cubic feet of dust, earth, dirt or soil.

If in the process of resolving the granite into dust the expansive force could be confined we would have a force equal to that which originally compressed the dust into granite, a force by far exceeding Keely's 26,000 pounds to the square inch.

If we resolve the granite dust into gases, the volume becomes thousands of times greater than when compressed into granite and if we knew how to explode granite into gases we would have a force equal to dynamite.

But these gases may be disintegrated, resolved into finer particles, that require a greater amount of space and in their expansion great force is produced. When the disintegration has reached its last stage and the particles can no longer be divided we have that which is called the ether.

Taking water and air Keely has followed the above process, not in detail but by a shorter route. He has discovered how to explode air and water, not into gases but into the stage beyond the gases and beyond electricity—the ether.

I cannot otherwise than regard all things as matter and the absence of matter as space. Everything that exists is the same as every other, the differences being in density. Therefore Keely's ether is matter in its most attenuated form and in process of condensation magnetism comes next, then electricity, the gases, liquids and solids making six grand divisions of matter, each of which is composed of various subdivisions.

PEOPLE'S PARTY CLUB MEETING.

A Meeting Place Secured—Addressed by Prominent Members.

The People's Party Club met in the Library Hall, Thompson's building, last evening. Quite a large crowd was present. The Committee on Glee Club asked for further time, which was granted.

The Committee on Hall reported that they had secured the reading room for one night per week and the report was adopted.

The Committee on Resolutions asked for further time.

Messrs. Hogan, Currier, Webster and Beck addressed the club. The basis of the discussion came upon a motion offered by Dr. Hogan that at the State Convention to be held September 6th county officers should be nominated.

Chairman McCormack stated that in order that such action be taken it would have to come before the club in the form of a resolution, after which followed a desultory discussion between Messrs. Hogan, Currier and Beck. Dr. Hogan criticized the action of the People's party County Central Committee in calling primaries to elect delegates to Carson.

Judge Currier followed Dr. Hogan and agreed with him in a general way. Mr. Beck spoke, saying among other things that he, having received a unanimous vote at the primaries as a delegate to the convention, considered it sufficient authority, and would go if he was alive and well. He also declared that if said convention did not substantially endorse the Omaha platform he would come home without participating further in the convention. He said "If the convention does not resolve against the passage of the O'Reilly bill I will come home without participating further." He also said: "If the convention does not include a plank in opposition to the exactions of the S. F. Co. and in favor of the Government foreclosing its mortgage in a business way, I will come home without further participation in the convention."

Dr. Hogan said that a true People's party would be organized and that it would send a man to Washington, and that man would be Judge Webster. Judge Webster stated that he was not a candidate for anything. That he was only anxious for the success of the party, and would endeavor to further its principles but was not a candidate in any sense whatever. The meeting then adjourned until next Monday evening at 8 o'clock at the same place.

A Card to the Public.

Having succeeded to the dental practice of Dr. H. A. Fredrick I take pleasure in placing my card before the public. I am now fully prepared to attend to all classes of dental work, including gold, crown and bridge work, at as low prices as is consistent with first-class operations. Trusting I may be favored in the future with the same generous practice the office has enjoyed in the past I shall endeavor to give thorough work and perfect satisfaction to all.

Very respectfully,
DR. R. P. CHANDLER.

Rooms 13 and 14, First National Bank building. ag28ml

Fare to the Convention.

A large number of persons are desirous of going to Carson to attend the State Convention of the Silver party, but do not seem disposed to pay full fare—two dollars each way. If the V. & T. people will reduce the rates one-half they will make money by it and oblige a number of persons.

A New Postoffice.

A new postoffice has been established at Roop, Washoe county, and Geo. D. Winters has been appointed postmaster. Parties having mail for that part of the country will find that the establishment of the new office will be a great convenience.

Injured on the N-C-O.

James Moore, fireman on the N-C-O, had his hand badly injured yesterday at Doyle station while wiping the rods on the engine. The rods moved and caught his hand in such a way as to jam it, and lacerated his fingers badly. It is thought that two of his fingers will have to be amputated.

Identified.

The young man's name who died at the County Hospital Thursday evening was found to be U. McNeal, his age about 23 years. He will be buried from Sander's Undertaking Parlors this afternoon at 4 o'clock.

Woman's Guild.

The Woman's Guild of Trinity Church will meet with Mrs. Colwell Saturday, September 1st, at 7:30 p.m. E. C. BABCOCK, Secretary.

Not Quite Ready.

Owing to the fact that the decorators Pugh & Cook will be unable to complete the work on the Baptist Church by next Sunday, it will not be ready for occupancy until the second Sunday in September when services will be held.

BREVITIES.

C. C. Wallace arrived from the west last night.

Hon. R. Rising changed cars for California last evening.

Keep a look out for Boalt & Bird's price list next week.

A nice quiet place to get a cool and refreshing drink is at H. J. Thye.

To enjoy sound and vigorous health, purify your blood with Ayer's Sarsaparilla.

Garden hose, lawn mowers, paints and oils at lowest prices at Lange & Schmidt's.

There is a girl living in Dayton; sixteen years old, who never saw Virginia until Thursday.

Your cough was occasioned by care less exposure to draft. Cure it at once with Ayer's Cherry Pectoral.

John Roeder of Pioche has arrived here with his son and daughter whom he intends to send to the State University.

Call for Lemp's St. Louis bottled beer. All first-class bars keep it. It is a refreshing and healthful drink this hot weather.

Twenty-six cases of butter from the Douglas Creamery and seven cases from the Reno Creamery were shipped west last night.

James Sullivan, proprietor of the Russ House, with his wife and babies has returned from a ten day's tour among the mountain lakes.

The largest assortment of heating stoves, parlor stoves, cook stoves and ranges, crockery and lamps at panic prices at Lange & Schmidt's.

Madame Bonneville Leak has returned from her summer vacation and desires to inform the public that she will resume her select French class at the corner of Virginia and First streets. Those desiring to join the class are requested to apply at once. As heretofore strict attention will be paid to the pupils.

Messrs. Boalt & Bird, the "Reno Cash Grocers," have contracted for a large quantity of northern country wheat, oats and barley. The first consignment of this lot, a car-load of rolled barley, arrived on the N-C-O. railway last evening and is now being offered at a very low figure. Remember they carry a full line of the choicest family groceries which they sell at prices permitting no competition. Watch for their price list next week.

CAMP POUJADE.

Dress Parade—The Troops Reviewed by the Governor and Staff.

The fourth dress parade passed off harmoniously Thursday evening. At the conclusion of the parade, the Artillery Band rendered a number of selections, among which was John P. Meder's Nevada State March.

At 9:30 yesterday morning the sound of the bugle brought out the soldiers for the battalion drill. It was a fine spectacle. The movements of the troops were beautifully simultaneous and not only gained admiration, but brought forth many remarks of commendation from the regimental officers.

Shortly after 2 o'clock in the afternoon the command for the companies to fall in was given. Then the band struck up a lively march and the troops were marched to the reviewing grounds. The artillery then fired several salutes, the companies put through various military evolutions and finally ordered to line up, facing the reviewing stand. At exactly 2:20 o'clock Governor Colcord and staff, consisting of Adjutant General Poujade, D. A. Bender, Dr. S. L. Lee, C. H. Galusha, immediately followed by General Keating's staff, consisting of D. Crosby, F. Golden, J. Kinkade and Conboy, made their appearance upon the scene and the ceremony of reviewing the regiment was immediately begun, which lasted nearly an hour.

First, the companies were inspected, then drilled and marched around the reviewing grounds, headed by the Artillery Band and the Governor's staff officers.

The artillery company was then ordered to do some rapid firing and drilling, which was very exciting and interesting. They were then marched to their respective headquarters and dismissed.

Col. Lord selected five men from the Virginia City companies to test the new arm adopted by the Government. They were J. D. Cameron, M. Burke, D. Sullivan, W. Spargo and E. Chatelein. This was their first experience with the new gun. Ten shots were fired with the result of 208 points being made out of the 250.—Tribune.

A Firebug in Surprise.

Wm. O. Spott of Eagleville lost his hay stack by fire a few days ago. Mr. Adams, a neighbor of Mr. Scott's, also had a stack destroyed. It is supposed that a firebug is at work, and if the individual is caught he will not have much chance for explanation.

Committed to the Asylum.

W. M. Naylor, a young man who has been in the employ of B. F. Leete for some time, and who a few days ago was taken violently ill, was examined yesterday for insanity and committed to the asylum. His insanity is of an acute type and it is thought he will soon recover and if not cannot live but a few days.

Justice's Court.

Martin Haas and George Fletcher, arrested at a late hour Thursday night for disturbing the peace, pleaded guilty before Justice Linn yesterday and were sentenced to 10 and 15 days respectively in the county jail.

Specimen Cases.

S. H. Clifford, New Cassel, Wis., was troubled with neuralgia and rheumatism, his stomach was disordered, his liver was affected to an alarming degree, appetite fell away, and he was terribly reduced in flesh and strength. Three bottles of Electric Bitters cured him.

Edward Shepherd, Harrisburg, Ill., had a running sore on his leg of eight years' standing. Used three bottles of Electric Bitters and seven boxes of Bucklen's Arnica Salve, and his leg is sound and well. John Speaker, Catawba, O., had five large fever sores on his leg and doctors said he was incurable. One bottle of Electric Bitters and one box Bucklen's Arnica Salve cured him entirely. Sold at S. J. Hodgkinson's drug store.

To the People of Reno.

I have lived in your midst for twenty-three years. No person can say I have knowingly misrepresented facts, neither do I misrepresent regarding Viavi. Husbands and fathers would have happier homes if the mothers and daughters were well. Come and make inquiry. I can show you hundreds of personal letters from those who have been cured, and my own renewed health will prove it also.

VIAMI CO.

Mrs. B. E. HUNTER, Fourth St.

University Notice.

Entrance examination for admission to the various schools in the University of Nevada will be held on Monday and Tuesday next, from 9 o'clock to 12, and from 1 to 4 each day. Students are requested to be prompt in reporting to the President's office for registration. Regular work will begin on Wednesday, Sept. 5, at 8:30 a. m. The training school will begin on Wednesday next.

By Order of the President.

ROBERT LEWERS,

Secretary of the Faculty.

Masonic Meeting.

First degree, Wednesday evening, August 29th; second degree, Thursday evening, August 30th; third degree, Saturday evening, September 1st, at 8 p. m. Members of Reno Lodge No. 13, P. & A. M., and sojourning brethren in good standing are cordially invited to attend.

FAMILY HANDWRITING.

Experts Say All of a Generation Have the Same Characteristics.

Experts in handwriting say that all the people of a single generation write alike, and it is well known that most French handwriting has a strong far. By likeness to the eyes of others than Frenchmen. Nearly all Chinese of the washhouse class look alike to the French observer, and persons unaccustomed to colored persons find difficulty in distinguishing one from another.

It needs, however, a comparison of two or three family photograph albums of 20 or 30 years ago to convince men and women of today that there are striking superficial likenesses running through Americans of a given generation. All these old albums show curious resemblances, chiefly perhaps of dress and face, but sufficiently striking for a family album at first glance to be taken for another. As page after page of each is turned over there is the same succession of men, women and children in full figure, sitting, standing, posed in groups of two or three, with hats, without hat, draped in their shawls, and manifestly dressed in the best for the occasion.

The photographers of those days chose, for reasons of their own, to make all length pictures, and as they were usually small costume counted for a great deal and helped to intensify the general likeness running the whole generation.—Philadelphia Press.

Hindoo Grades.

The four grades of society among the Hindoos are the Brahmins, or sacerdotal class, who are said at the moment of creation to have issued from the mouth of Brahma; the Kshatriya, or Chutsoo, or military class, springing from the arm of Brahma; the Vaisya, or Buis, or mercantile class, from the thigh of Brahma; and Sudras, or Soopers, or servile class, from the foot of Brahma. The Sudras of the Sudras is to serve the three superior classes, more especially the Brahmins. Their condition is never to be improved; they are not to accumulate property and are unable by any means to approach the dignity of the higher classes. These divisions are hereditary, impassable and indefeasible.—Brooklyn Eagle.

BALD HEADS!

What is the condition of yours? Is your hair dry, harsh, brittle? Does it split at the ends? Has it a lifeless appearance? Does it fall out when combed or brushed? Is it full of dandruff? Does your scalp itch? Is it dry or in a heated condition? If these are some of your symptoms be warned in time or you will become bald.

Skookum Root Hair Grower

Is what you need. Its production is not an accident, but the result of scientific research. Knowledge of the diseases of the hair and scalp led to the discovery of how to treat them. "Skookum" contains neither minerals nor oils. It is not a dye, but a delicately cooling and refreshing tonic. By stimulating the follicles, it stops falling hair, cures dandruff and grows hair on bald heads.

It keeps the scalp clean, healthy, and free from irritating eruptions. It does not clog the pores. It makes the hair soft, smooth, and healthy.

Send supply you need at once to us, and we will forward a full set of

SPECIAL RACES

Will be arranged by the Directors.

A Bicycling Stake Will be Offered

RULES AND CONDITIONS.

1—Races to begin at 1 o'clock P. M. sharp.

2—Entries for running races must be made two days preceding the races, before 8 o'clock P. M.

3—National Trotting Association rules to govern trotting and pacing races.

4—No horse is qualified to be entered in any district race that has not been owned and kept in the district five months prior to the day of the race.

5—Pacific Coast Blood Horse Association rules to govern running races where they do not conflict with these conditions.

6—All running purses divided at the rate of 60 per cent. to the first, 30 per cent. to the second, and 10 per cent. to the third.

7—All trotting and pacing purses divided into four moneys, viz: 50, 25, 15 and 10 per cent.

8—Nominations for trotting and pacing races must be made to the Secretary on or before the 15th day of September, 1894.

9—Any person not intending to start his horse must notify the Secretary in writing on or before 8 o'clock the

evening previous to the day of the race.

10—Horses entered in purses can only be drawn by consent of the Judges.

11—In all races five or more to enter and three or more to start, but the Board reserves the right to hold a less number than five to fill by the withdrawal of a proportionate amount of the purse.

12—Ten per cent. entrance to all races must be paid to the Secretary prior to weighing the jockeys out.

13—In all handicaps weights to be announced at 1 o'clock in the afternoon previous to the day of the race. Declaration at 6 P. M.

14—For a walk-over in any race a horse will only be entitled to its own entrance fee.

15—Where less than the required number of starters appear they may contest for the entrance money, to be divided as follows: 66% to the first and 33% to the second.

16—The Board reserves the right to change the order of any day's races.

17—The Board reserves the right to allow in all running races from 5 to 15 pounds less than the scale weight.

All Entries are to be Addressed to

N. W. ROFF, Secretary.
